

Seed Scoop Owner's Manual

CASCADE™ SEED SCOOP
Scoop & Fill | #B43

See the Scoop in Action

Perfect Fit Scoop & Fill

Enjoy watching the seed cascade through the feeder.

SCOOP SEED
Hold the seed scoop by the handle and fill with seed to Max Fill line.

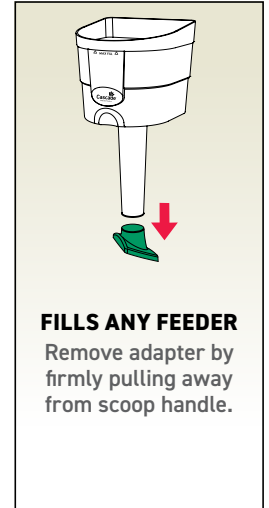

FIT SPOUT ONTO FEEDER OPENING
Fit spout onto your Cascade Feeder opening, press button, and watch seed cascade.

COMPLETE FILLING
You may need to tap the sides of feeder to loosen larger seeds while filling.

COMFORT TIP
You can rotate the adapter to five different positions. Try all five to see which is most comfortable for you.

FILLS ANY FEEDER
Remove adapter by firmly pulling away from scoop handle.

Get the Most Out of Feeding Songbirds:

- **Different seeds can attract different types of birds** in your area and change with the seasons. Vary your offerings and note the activity and types of birds each seed variety attracts.
- **Some seed mixes** contain red millet, oats, or other fillers that can lead to messy waste as birds sort through the mix for choice seed.
- **Different birds like different seed**, but black oil sunflower attracts the greatest variety of birds. You can use two different types of seed in the DNA Feeder, or hang multiple feeders for variety.
- **Studies show bird song can improve mood and mental health**, promote relaxation, and reduce stress and anxiety. Connect with nature by attracting birds to your garden or patio.
- **Feed birds in winter** when natural food sources may be limited or buried beneath snow. **Spring feeding can help** support birds on their long northern migrations.

- Our helical feeders create a **Natural Feeding Pattern™** for your birds.
- Visit CascadeFeeders.com and click on **Resources** for useful **Videos**.
